OUR STORY

Leixir group is a diversified conglomerate, active in Commodities, InfoTech and Healthcare sectors in India, Middle East and South-East Asia. The group was established in 1996 and is characterized by its ability to spot unique opportunities and rapidly convert them into successful operations by utilizing best management practices, harnessing technology and innovative financing skills to nurture and create business value for all of its stakeholders. Managed by two successful serial entrepreneurs, **Mr. Harmeet Bindra** and his partner **Mr. Mangesh Sholapure**, the group's flagship venture was setting up one of the largest IT Consulting companies in South East Asia called **SOLIUS**.

In 2012, partnering with leading dental professionals, the group has ventured in to the fast-growing Dental-care space as **Leixir Lab Group**. The main philosophy behind this venture is to harmonize people and advance dental technology with the aim of creating the seamless platform for the benefit of our dentists & partner dental labs.

In recent time, Leixir Lab group has acquired a dental lab in Ontario, Canada. We are in process of acquiring more dental labs in **United States, Canada and Australia** in order to create operational synergies and business value. Currently we are in discussions with the dental labs in United States & Canada and are in advance stage of finalization.

We believe your laboratory has the potential to fit into our vision and invite you to meet with our consultants and develop a dialog for the formal evaluation of your business as the first step in a plan to grow your business and to become part of our group.

● **Seamless Integration of Advanced Technology**

We have the experts, knowledge, equipment and infrastructure necessary for quality laboratories to integrate the most advanced technology into your laboratory, almost overnight. Small to medium sized laboratories are immediately equipped to offer the latest 3D technology and expertise to a growing base of dentists.

At Leixir we believe in synergy and developing our network of labs across the globe, in United States, Canada, Australia and India. We invite dental labs worldwide to join our network and to take advantage of the state-of-the-art technologies within the Leixir network, as well as the education, technology, and innovative solutions aimed toward growth.

Our group is keen to partner with the dental labs with the objective to expand your lab and maximize rapid growth opportunities especially in the area of Digital Dentistry. **We have a program that stress expanded use of existing owners talents in interfacing with dentist and enhancing business over a three year period (or more if mutually desired) of Development and implementation of mutually rewarding 'Exit strategy'.**

Member Labs experience many benefits in terms of technology and growth.

● **Advantages of Partnership with the Leixir Lab Group**

- Mutually rewarding **Exit strategy** for Lab owners.
- Leixir provides **the liquidity options** and planning designed for dental labs to enable seamless integration of the most advanced technology into the existing laboratory infrastructure.
